## **County redraws election precincts to account for voter population growth** *Changes in precincts will not impact voters' districts or choice of voting location*

**LITTLETON, CO** – Arapahoe County updated its election precinct map to account for changes in voter population, adding 14 new precincts and changing the boundaries of 22 existing precincts. No changes were made to legislative, congressional, commissioner or other district boundaries.

By law, the Clerk and Recorder's Office is responsible for updating the countywide precinct map to ensure that no precinct exceeds 1,500 active voters, or up to 2,000 active voters with Board approval. Each precinct must fall within the boundaries of a legislative district and follow natural and artificial boundaries.

The Clerk and Recorder's Office adjusted the boundaries of 22 precincts that were over or approaching the 2,000 voter limit by combining neighboring precincts and creating new precincts elsewhere. These changes resulted in a net increase of 14 precincts, from 381 to 395. The updated precinct map and a list of precinct changes are available online at [www.arapahoevotes.com/maps](http://www.arapahoevotes.com/maps). The changes were approved June 23 by the Board of County Commissioners.

Voters whose precincts have changed will receive information cards this summer advising them of the change. Precinct changes do not affect how or where voters may cast a ballot, because Colorado no longer has precinct polling places. Instead, active registered voters receive a mail ballot in every election, and citizens may seek in-person services at any Voter Service and Polling Center in the county.

Precinct and district maps are available online and printed copies may be purchased from the Clerk and Recorder's Office at 5334 S. Prince St., Littleton. For more information, or to update your voter record to ensure you receive a mail ballot for the Nov. 3 Coordinated Election, please call 303-795-4511 or visit [www.arapahoevotes.com](http://www.arapahoevotes.com).
