Arapahoe County celebrates dedication of Riverside Downs

Trailhead amenities improve river and trail access, shopping and more.

Littleton, Colo. – The new [Riverside Downs](#) at the South Platte River combines both park and open space enhancements and improved access to the South Platte River. It is located adjacent to the similarly named commercial center that houses several restaurants, retail spaces and offices, between Prince Street and Belleview in Littleton.

A public dedication of the trailhead will be held 4:30 – 6:30 p.m., Sept. 24. Festivities will take place adjacent to Riverside Downs Plaza, located on the east side of the Center. All are invited to enjoy food and entertainment, and experience a unique inauguration of the project. Representatives from the [City of Littleton](#), [South Suburban Parks and Recreation](#), [Arapahoe County](#) and [Littleton Capital Partners](#) will participate.

The goal is to merge the established commercial businesses with the nearby preserved open space and orient the Center's visitors toward the South Platte River and the Mary Carter Greenway trail.

The Riverside Downs project was funded by the City of Littleton and Arapahoe County Open Spaces and cost approximately \$1 million. South Suburban Parks and Recreation helped oversee the bidding, design and construction management, and will share maintenance of the project.

Construction on the park and open space began in late April. A wide set of terraced concrete steps were installed, adding additional seating and providing easy access down to the open space and river. New amenities adjacent to the Center include a brand new bocce ball court, and a small outdoor performance area. With the support and participation of the property owners, Littleton Capital Partners, more than 400 feet of new concrete trail will be constructed from the current plaza area north to Belleview Ave.

The completed project includes improved access to Riverside Downs Shopping Center, landscaping and additional trees, lighting, benches, picnic tables, trash receptacles, improved aesthetics, and placement of seating boulders with a view to the river. The South Platte River attracts anglers, stand up paddle boarders, tubers, kayakers and more. The hope is to bring walkers, cyclists, water enthusiasts and shoppers together.
