CSU-Extension Hosting Drone Discovery for Youth National Science Day *Youth invited to participate in 2016 4-H Youth National Science Day experiment*

LITTLETON, CO --- Drones play an important role in the world around us. Arapahoe County CSU-Extension is inviting youth to participate in the 2016 4-H National Youth Science Day experiment Oct. 8. Drone Discovery is free to attend and will be held 10 a.m. – 2 p.m. at Buckley Air Force Base Youth Center.

Youth ages 8 – 18 will explore engineering design and flight principles of drones. The experiment will demonstrate how drones and remote sensing can be used to solve real world problems. Participants will design flight models and use computer coding.

4-H National Youth Science Day is the world's largest youth-led engineering design challenge, drawing nearly 100,000 participants in 2015. Arapahoe County 4-H youth complete numerous STEM projects in robotics, agricultural science and rocketry annually. 4-H enrollment for 2017 begins Oct. 1 for new members.

Registration for Drone Discovery is required by Sept. 26. Register by emailing Danielle Ardrey at dardrey@arapahoegov.com or calling 303-738-7977.

The Arapahoe County CSU-Extension office is located at 6934 S. Lima St., Suite B, Centennial, 80112. More information on CSU-Extension and 4-H is available at <http://arapahoe.extension.colostate.edu> or by calling 303-730-1920.
