

HB19-1234

Regulated Marijuana Delivery

Concerning allowing delivery of regulated marijuana by regulated marijuana sellers, and, in connection therewith, making an appropriation.

SESSION: 2019 Regular Session

SUBJECT: Liquor, Tobacco, & Marijuana

BILL SUMMARY

Regulated marijuana - delivery - rule-making authority - surcharge - limitations - local authorization - appropriation. The act creates marijuana delivery permits for licensed medical marijuana centers and transporters and licensed retail marijuana stores and transporters that allow the centers, stores, and transporters to deliver medical marijuana, medical marijuana-infused products, retail marijuana, and retail marijuana products to customers. The act gives the state licensing authority rule-making authority over the permit and delivery system. The act specifies that a permit is valid for one year and may be renewed with the associated license. A one-dollar surcharge is assessed on each delivery, and that money is remitted to the municipality where the center or store is located, or to the county if the center or store is in an unincorporated area, for local law enforcement costs related to marijuana enforcement. Deliveries are limited to one per day, limited to private residences, and may not be made to college campuses. The act provides protection against criminal [Read More](#) liability for those making the deliveries. Delivery is only allowed in a jurisdiction if that jurisdiction has voted to allow delivery either by referendum or by the governing
