

Future gas appliance affidavit

General guidelines

- Completed affidavits must be submitted online as a PDF using the [Customer Access](#) portal.
- There is no need to email us when you submit documents. Staff is notified automatically within one business day of your submission.

General Guidelines

This affidavit intends to ensure that the property owner(s) have been sufficiently informed by the contractor and the County, regarding any future fuel-fired appliance installation, along with the permitting and inspection requirements and maximum design BTU loading limitations allowed for said appliance.

Required information

Property owner(s): _____

Property address: _____

Gas piping permit #: _____

Maximum gas piping appliance capacity identified by the gas piping contractor _____ (BTU)

1. By signing this County affidavit, I/we hereby acknowledge and affirm that a separate permit and associated inspection approvals will be required by Code, for the installation and use of any gas appliance to be connected to the fuel gas piping installed under the scope of this permit.
2. I further understand that any proposed fuel gas appliances must be listed for their intended use, and the fuel demand may not exceed the designed capacity documented herein.
3. The manufacturer's installation instructions must be provided for any fuel-fired appliances that are to be installed under a separate permit.

(NOTE: Only one property owner needs to sign.)
