

Appendix D: Action Plan Matrix

The Action Plan Matrix lists the strategies from Chapter IV of this Plan. The matrix indicates the type of action that will be required to implement a strategy, the party or parties primarily responsible for implementing the strategy, and the priority of the strategy to be initiated. The County staff and planning officials will need to update this matrix on an annual basis, or as necessary, to keep the responsibilities and strategies current.

In the “**Type of Action**” column, the letters indicate whether the action required can be characterized as:

- (R) - Regulatory Procedures, either new or modified regulations or enforcement of existing regulations,
- (D) - Policy Decisions,
- (P) - Programs or Additional Plans,
- (SP) - Subarea Planning,
- (IGA) - Intergovernmental Agreements, or
- (IA) - Infrastructure Assessment (see Section V: Implementation Approach, for descriptions).

The “**Priority**” column lists four possible time frames for implementing actions:

- (1) - **Immediate Priority**, to be implemented with adoption of the Plan or soon thereafter.
- (2) - **High Priority**, to be initiated as soon as possible and completed within one to two (1-2) years after Plan adoption.
- (3) - **Moderate Priority**, to be completed within three to five (3-5) years after Plan adoption.
- (O) - **Ongoing**, are actions that occur continually.

Once a strategy has been initiated and when the Action Plan Matrix is updated, the priority column for that particular strategy will be replaced with the term, “Completed.”

GROWTH MANAGEMENT

Strategy/Action	Type of Action	Responsible Party/Parties	Priority
<i>Strategy GM 1.1(a) – Restrict Urban Development in Areas Other than the Designated Growth Areas</i>	D	County	O
<i>Strategy GM 1.1(b) - Create Incentives for Development in Designated Growth Areas</i>	R, D	County	2
<i>Strategy GM 1.1(c) - Allow Urban Development Within the Designated Growth Areas Only When All Urban Services and Infrastructure Can Be Provided</i>	D	County	O
<i>Strategy GM 1.1(d) – Review and Amend Residential Zone Districts</i>	R	County	1
<i>Strategy GM 1.2(a) - Create Incentives and Remove Barriers to Infill Development</i>	P	County	O
