

ARAPAHOE COUNTY OIL & GAS REGULATIONS

PROJECT TIMELINE TO AMEND THE LAND DEVELOPMENT CODE

ARAPAHOE COUNTY
COLORADO'S FIRST

With the passage of Senate Bill 181, additional authority was given to county governments to enhance oil and gas regulations in their communities. In response, Arapahoe County is drafting an amendment to the Land Development Code to include oil and gas regulations for unincorporated parts of the county that further protect quality of life, public health, safety and welfare. Public feedback on this process is critical.
